Hey Guys!

I hope everything is going really well for you since I've been gone. I love to make music and I kept it quiet from you guys but I thought I'd plug myself a bit!

Basically my music mostly consists of me, a guitar and a keyboard with a laptop in the background for samples and sequences.

None of my songy-songs are up on myspace yet and I'm pretty unorganised musically at the moment but I have a strange, electronic sort of song thats unfinished up on there.

So here it is: www.myspace.com/jackpalmersongs

Hey Jack,

Blimey,you kept that quiet!! Sounds great, you need to come back to us or maybe we could collaborate on a new sounds event?
